

AFTER ACTION REPORT

Shelter in place order is still in effect. Please do not venture out until the order has been rescinded. I know it looks like “just some rain and wind” but NWS is anticipating stronger winds this afternoon with up to 15 inches of rain which can cause localized flooding.

The Barrier Islands are open to residents only. The Skyway Bridge is closed due to tropical storm force sustained winds.

Belleair Bluffs emergency management staff will continue to monitor the storm and perform response and recovery operations after the storm.
